### **STUDENT VOLUNTEERS FOR SCHOOL AND PUBLIC SERVICE**

The Board encourages the utilization of student volunteers in the educational program (e.g., student librarians, student office helpers, etc.) And in useful community services. However, each student volunteer must be capable of carrying out additional load without endangering his academic standing. Therefore, all student volunteers shall be expected to maintain their grades, attend all classes, and recognize that the activity to which they are volunteering their services is secondary to their primary goal of getting an education.

Teachers and members of the community are encouraged to check with the guidance counselor and the principal before students are sought for volunteer help, to make sure that the students can afford the time to undertake the additional responsibility.
